Allspring (Lux) Worldwide Fund - U.S. Large Cap Growth Fund, a Sub-Fund of Allspring (Lux) Worldwide Fund Class A (USD) Shares - acc. (LU0354030438)

Management Company: Allspring Global Investments Luxembourg S.A.

Objectives and Investment Policy

The Sub-Fund seeks long-term capital appreciation by investing, under normal market conditions, at least two-thirds of its total assets in equity securities of U.S. large-capitalisation companies (currently considered to be those within the market capitalisation range of the Russell 1000® Index at the time of purchase), and up to 25% of its total assets in equity securities of non-U.S. issuers through ADRs, CDRs, EDRs, GDRs, IDRs and similar depository receipts as well as U.S. dollar-denominated equity securities of non-U.S. issuers. U.S. equity securities are securities issued by companies with their principal office in the United States or exercising a predominant part of their economic activities in the United States.

The Sub-Fund invests principally in the equity securities of approximately 30 to 40 large-capitalisation companies that it believes offer the potential for capital growth.

The Sub-Fund may invest in any sector, and at times it may emphasize one or more particular sectors. The Sub-Fund may use futures, forward contracts, options or swap agreements, as well as other derivatives, for hedging or efficient portfolio management purposes.

Price objectives are determined based on industry-specific valuations methodologies and in addition to meeting with management, the Sub-Fund takes a surround-the-company approach to obtain multiple perspectives that help it make better investment decisions.

This share class does not distribute dividends. Income is reinvested in the Sub-Fund.

You may sell your shares on each business day when banks in Luxembourg are open for normal business and the New York Stock Exchange is open for trading (a "Business Day").

The Sub-Fund is actively managed but uses the Russell 1000® Index as a reference for selecting investments and the Russell 1000® Growth Index for performance comparison. The investments of the Sub-Fund may deviate significantly from the components of and their respective weightings in the benchmarks.

Risk and Reward Profile

This rating system is based on the volatility of the Sub-Fund's returns over the past 5 years. Please note past returns may not be a reliable indicator of the future risk and reward profile of the Sub-Fund; the rating may change over time based on future returns; and category 1 does not mean a risk-free investment.

Lower Risk

< Typically Lower Rewards

Higher Risk

Typically Higher Rewards >

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The class is in category 6 because the average amount returns varied each year over the past 5 years was equal to or above 15.0% and less than 25.0%.

The following additional risks may impact the Sub-Fund's returns:

Counter-Party Risk - The Sub-Fund may incur a loss if the other party to an investment contract, such as a repurchase or reverse repurchase agreement or certain derivative contracts, fails to fulfill its contractual obligation to the Sub-Fund.

Derivatives Risk - The use of derivatives such as futures, options and swap agreements, can lead to losses, including those magnified by leverage, particularly when derivatives are used to enhance return rather than offset risk. In addition, there may be an absence of a liquid market for any particular instrument at any particular time.

Market Risk - The market price of securities owned by the Sub-Fund may go up or down, sometimes rapidly or unpredictably. A security may decline in value due to factors affecting the issuer or securities markets generally or particular industries represented in the securities markets.

The Sub-Fund may not achieve its objective and/or you could lose money on your investment in the Sub-Fund. For more information about the Sub-Fund's risks, please see "Risks" and "Risk Management Processes" in the prospectus, which is available at allspringglobal.com.
