| What is this product?  |  |  |  |
| Туре                   | Allspring (Lux) Worldwide Fund (the "Fund") is a Societe d'Investissement à Capital Variable (SICAV) composed of several separate sub-fund organised under the laws of Luxembourg.   |  |  |
| Term                   | The Fund has been established for an indefinite period of time. The PRIIP Manufacturer reserves the right to liquidate the Fund, subject t approval by the Board of Directors.   |  |  |
| Objectives             | Allspring (Lux) Worldwide Fund - Global Income Fund (the "Sub-Fund") seeks total return, consisting of a high level of current income and capital appreciation by investing, under normal circumstances, at least two-thirds of its net assets in income-producing securities which may include Green Bonds and perpetual bonds, (up to 100% of its net assets) issued by issuers domiciled anywhere in the world. The Sub-Fund promotes environmental and/or social characteristics but does not have a sustainable investment objective.   |  |  |
|                        | The Sub-Fund may invest up to 100% of its net assets in debt securities that are below investment-grade (i.e., BB+ or lower by Standard & Poor's or Ba1 or lower by Moody's or an equivalent quality rating from another internationally recognised credit ratings organisation or, if unrated, are deemed by the Sub-Investment Managers to be of comparable quality) at the time of purchase; up to 50% of its net assets in securitised assets, including mortgage-related and asset-backed securities issued or guaranteed by US government sponsored agencies, which may include in majority investments in mortgage to-be-announced ('TBA') securities. Within this limit of 50%, a maximum of 20% of its net assets may be invested in securities dassets in scope of Regulation (EU) 2017/2402, including non-US government agency issued mortgage-related and asset-backed securities; up to 50% of its net assets in contingent convertible securities; and up to 10% of its net assets in catastrophe bonds. The Sub-Fund may invest no more than 10% of its net assets in distressed or defaulted debt securities. Distressed securities are those debt securities rated below Caa2 by Moody's or CCC by Standard & Poor's. Defaulted securities are those debt securities rated below Caa2 by Moody's or CCC by Standard & Poor's. Defaulted securities, are those debt securities rated below Caa2 by Moody's or CCC by Standard & Poor's. Defaulted securities are those debt securities rated below Caa2 by Moody's or CCC by Standard & Poor's. Defaulted securities are those debt securities rated below Caa2 by Moody's or the net assets of the Sub-Fund will have an ESGiQ rating, of which two-thirds will not in high or leading and will exclude low or lagging. Municipal securities, cash, derivatives and investments in underlying Sub-Funds will not be required to have an ESGiQ score. |  |  |
|                        | Through the use of a negative screening process, the Sub-Fund seeks to exclude certain securities in accordance with its exclusion policy. A copy of the methodology and list of excluded investments (including the revenue thresholds) is available under allspringglobal.com. Shareholders may also request a copy from the Fund or the Management Company. The Sub-Fund may also use futures, forward contracts, options, or swap agreements, as well as other derivatives, for hedging, efficient portfolio management or investment purposes. The investment process for both asset allocation and security selection focus on the value-driven measures that are used by the Sub-Investment Managers when managing sector assignments such as high yield bonds, global bonds, emerging markets, investment-grade bonds, and mortgage-related and asset-backed securities.   |  |  |
|                        | The Sub-Fund is actively managed but uses the Bloomberg Global Aggregate Index (USD Hedged) for performance comparison. The investments of the Sub-Fund may deviate significantly from the components of their respective weightings in the benchmark.   |  |  |
|                        | You may redeem your investment upon demand on each business day when banks in Luxembourg are open for normal business and the New York Stock Exchange is open for trading (a "Business Day").  |  |  |
|                        | This share class intends to distribute dividends net of expenses monthly.  |  |  |
|                        | This share class will seek to be 100% hedged against the base currency of the Sub-Fund with the objective of minimising currency risk exposure. It may not be possible to always hedge the class 100% against fluctuations of the reference currency.  |  |  |
| Depositary             | Brown Brothers Harriman (Luxembourg) S.C.A.  |  |  |
| Additional information | This document describes a share class of a sub-fund of Allspring (Lux) Worldwide Fund. The assets and liabilities of each sub-fund are segregated and no sub-fund is responsible for the liabilities of another. What are the risks and what could I get in return?

# Summary risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 3 out of 7, which is a medium low risk class. This rates the potential losses from future performance at a medium low level; and poor market conditions are very unlikely to impact the capacity of the Sub-Fund to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

## Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

The value of your investment would not be affected by a default by the PRIIP Manufacturer. The value of your investment is not guaranteed but you will not face financial loss greater than the amount of your investment.

#### What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed: in 2026 you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

| Investment AUD 10,000 |                          |                           |  |  |  |
|-----------------------|--------------------------|---------------------------|--|--|--|
| Scenarios             | lf you exit after 1 year | lf you exit after 5 years |  |  |  |
| Total costs           | 15 AUD                   | 75 AUD                    |  |  |  |
| Annual cost impact(*) | 0.2%                     | 0.2%                      |  |  |  |

(\*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at maturity your average return per year is projected to be -0.7% before costs and -0.9% after costs.
